the Science of the Total Environment
An International Journal for Scientific Research into the Environment and its Relationship with Man

Volume Contents

Volume 172 (1995)

Vectorial model to study the local breeze regimen and its relationship with SO_2 and particulate matter concentrations in the urban area of Castellón, Spain
A. Boix, V. Compañ, M.M. Jordán, T. Sanfeliu (Spain) 172
Radiostrontium transfer to sheep's milk as a result of soil ingestion
P.A. Assimakopoulos, K. Divanes, A.A. Pakou, K.C. Stamoulis, A.S. Mantzios, E. Nikolaou (Greece) 17
Nutrient distributions in the surface sediment of the central lagoon of Venice
A. Sfriso, B. Pavoni, A. Marcomini (Italy) 21
Survey of bioavailable selenium in Sweden with the moose (*Alces alces* L.) as monitoring animal
V. Galgan, A. Frank (Sweden) 37
Function of the rat salivary glands after exposure of inorganic mercury
P. Bratt, I. Johansson, J. Linder, T. Ericson (Sweden) 47
Exposure to airborne cadmium in some Italian urban areas
F. Valerio, M. Pala, M.T. Piccardo, A. Lazzarotto, D. Balducci, C. Brescianini (Italy) 57
Investigations of the sorption characteristics of radiosilver on some natural and artificial soil particles
G. Szabó, J. Guczi, J. Valyon, R.A. Bulman (Hungary) 65
Comparison of six bioassays for assessing in vitro acute toxicity and structure-activity relationships for vinyl chloride monomer, its main metabolites and derivates
M.P. Sauvant, D. Pépin, J. Bohatier, C.A. Grolière (France) 79
Erratum 93
Is the glass phase dissolution rate always a limiting factor in the leaching processes of combustion residues
J. Yan, I. Neretnieks (Sweden) 95
Plankton as an indicator of the temporal variation of the Chernobyl fallout
O. Ravera, L. Giannoni (Italy) 119
Elemental content in baseflow water samples as an indicator for surface contamination with toxic and other elements
F.Y. Iskander, M. Lyday (USA) 127
On-site environmental water analyses by ICP-MS
M.J. Duane, S. Facchetti (Italy) 133
Changes in dissolved free amino acid composition in sea water associated with phytoplankton populations
J. Braven, E.I. Butler, J. Chapman, R. Evens (UK) 145
Heavy metal distribution in Bulgaria using *Populus nigra* 'Italica' as a biomonitor
R. Djingova, G. Wagner, D. Peshev (Bulgaria, Germany) 151
Isolation of haloorganic groundwater humic substances
M. Krog, C. Grøn (Denmark) 159
Can household pets be used as reliable monitors of lead exposure to humans?
P.J. Berny, L. M. Côté, W.B. Buck (France, USA) 163
Background heavy metal levels in estuarine sediments and organisms in Galicia (northwest Spain) as determined by modal analysis
E. Carral, X. Puente, R. Villares, A. Carballeira (Spain) 175
Lead contamination of soils and vegetation in the vicinity of a lead smelter in Nigeria
D.J. Oyedele, I.B. Obioh, J.A. Adejumo, A.F. Oluwole, P.O. Aina, O.I. Asubiojo (Nigeria) 189

Hazard to man and the environment posed by the use of urban waste compost: a review
I. Déportes, J.-L. Benoit-Guyod, D. Zmirou (France) 197
Trace metals in wild rice sold in the United States
J.O. Nriagu, T.-S. Lin (USA) 223
Gel chromatography separation and U.V. spectroscopic characterization of humic-like substances in urban composts
P. Prudent, M. Domeizel, C. Massiani, O. Thomas (France) 229
Aluminium fluoride complexation and its ecological importance in the aquatic environment
N. Radic, M. Bralic (Croatia) 237
Copper sorption in clay fractions of alluvial soils
M. de la Flor, R. Vigil de la Villa, V. Cala (Spain) 245
Sorption of ^{137}Cs from undisturbed forest soil in a zeolite trap
B.H. Fawaris, K.J. Johanson (Sweden) 251
